

# HEDGEROWS

What do Manx farmers do for the Countryside?

Manx Farmers actively maintain  
and enhance over

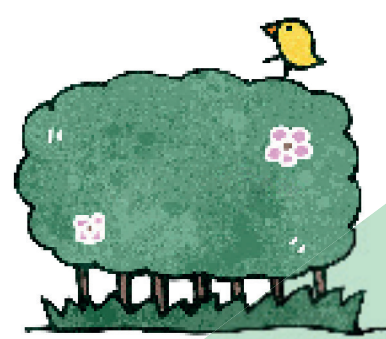

# 5000 Km

of Hedgerows.

Hedgerows are needed to ensure that  
wildlife such as songbirds, hedgehogs,  
pollinators, invertebrates etc. have a  
place to live and thrive.

Trivia: If all the Manx Hedgerows were  
laid end to end it would reach  
all the way to Canada.

In contrast the Isle of Man has  
1099 kms of public roads.

5000 kms

# AVERAGE FIELD SIZES

Larger fields allow for more  
efficient farming methods

**ISLE OF MAN**  
**AVERAGE FIELD SIZE**  
**5 ACRES**

**ENGLAND**  
**AVERAGE FIELD SIZE**  
**24 ACRES** Approx (2017 DEFRA UAA)

**AUSTRALIA**  
**AVERAGE FIELD SIZE**  
**1483 Acres**
