

# Wayleave agreement for Manx Telecom Trading Ltd

## Exceptional Indemnity

The Manx Telecom Wayleave agreement sets out a specified amount of £1,000,000 with respect to Indemnity against third party claims. In exceptional circumstances MANX TELECOM will review this amount if the Grantor can identify and demonstrate a specific risk that would require a larger amount.

## Review

Upon request MT and MNFU agree in good faith to review this framework agreement in the event that either party believes that it no longer achieves its objective of avoiding disputes and resultant costs in the management of any apparatus and the land on which it is installed; or, that the agreement no longer provides a consistent framework as judged against other similar jurisdictions.
